Northwest Active Projects

In design or construction phase.

Northwest Sub-Regional Planning Study

The City of Fort Worth will be partnering North Central Texas Council of Governments (NCTCOG) to develop a Sub-Regional Transportation Plan for the rapidly growing areas west and north in and near Fort Worth.

The purpose of this plan is to create a multi-jurisdictional planning document that establishes a regional multi-transportation arterial and network framework for prioritization and implementation of improvements. The plan will emphasize development of a variety of transportation network alternatives, coupled with an overview of how land in the area can be best used along in conjunction with area redevelopment. The Study will result in a shared vision for mobility across the fastest growing portions of the north western side of the Metroplex.

Citywide Transportation Masterplan

The Plan will be developed in close coordination with NCTCOG, local jurisdictions and Texas Department of Transportation (TxDOT). The Plan is anticipated to provide common goals and implementation processes across city departments, associated transit agencies and other partners on performance of current and future major mobility projects, and will:

1. Develop clear goals and objectives for city transportation investments over next 25 years.
2. Support the city’s commitment to vision zero and equity.
3. Support a state of good repair and fiscal responsibility.
4. Support the city’s comprehensive plan and NCTOG’s Metropolitan Transportation Plan.
5. Prioritize feedback from the public during the plan’s public outreach and engagement process.
6. Develop a program of multimodal projects tied back to bond, TIP, and other funding cycles.
7. Sync the existing transpiration network planning documents into a comprehensive multimodal network (thoroughfares, active transportation, transit)
8. Coordinate city policies that impact transportation and land use, such as zoning and subdivision regulation.
9. Integrate smart cities and technology strategies with viable projects and policies for programming and implementation of plan goals.
10. Integrate smart cities and technology strategies with viable projects and policies for programming and implementation of plan goals.

NORTHWEST FORT WORTH AREA ACTIVE AND PLANNED PROJECTS			
#	ID	Facility	Status
1	N/A	FM 1220: North of Bailey Boswell Rd to FM 718	Pending Evaluation
2	N/A	Bowman Roberts Road: Bailey Boswell to Ten Mile Bridge	Under Evaluation
3	101867	Bowman Roberts Road & WJ Boaz Rd Intersection	Completed
4	103299	WJ Boaz Rd: Boat Club Rd to Elkins Rd	Active
5	N/A	Old Decatur Road: Longhorn to Loop 820	Under Evaluation
6	103278	Bonds Ranch Road: Wagley Robertson Rd to US 287	Active
7	104153	Bailey Boswell Rd: Boat Club Rd to Wind River Dr	Active
8	101012	Cromwell-Marine Creek Rd: Boat Club Rd to Marine Creek Pkwy	Active
9	N/A	"New Road": Boat Club Rd and Bond Ranch Rd	Under Evaluation
10	N/A	Heritage Trace Pkwy: "New Road" (see above) to FM 156 Blue Mound Rd	Under Evaluation
11	N/A	McLeary Blvd (City of Saginaw)	Pending Evaluation
12	N/A	Bailey Boswell Rd: Blue Mound Rd to Harmon Rd	Under Evaluation
13	N/A	Cromwell Marine Creek Rd: Cromwell-Marine Creek Rd to Longhorn Road	Under Evaluation
14	N/A	Bowman Roberts Rd and Cromwell-Marine Creek Rd Signalized Intersection	Replaced (see #8)
15	N/A	FM 156 Blue Mound Rd: McLeary Blvd to US 287	Pending Evaluation
16	N/A	Cromwell-Marine Creek Rd at Huffines Blvd Signalized Intersection	Replaced (see #8)
